

Corbion

Global quality policy

Corbion is a global leader in sustainable food-ingredient solutions focused on advancing natural preservation and nutrition with science and innovation. By harnessing deep expertise in fermentation and application development, we empower customers to create safe, sustainable, and longer-lasting food products. We preserve what matters.

At Corbion, the business strategy is to create sustainable growth. Our quality philosophy is to support the Corbion strategy in compliance with our company values: Care, Courage, Commitment and Collaboration.

We commit to our customers to develop, manufacture, distribute and market safe, sustainable and effective products and solutions throughout the world.

Our activities related to quality and product safety are supported by a quality management system that includes policies, procedures, and training. This ensures that we meet all regulatory and appropriate certification requirements, including mutually agreed customer requirements.

Our Head of Global Quality is responsible for implementing the policy and procedures supported by quality managers for every site and Corbion employees of every level and function. Corbion leadership and employees strive for zero defects and no waste by constantly looking for opportunities to apply our continuous improvement approach to deliver competitive advantage. Only through collaboration across Corbion can we accomplish this, and as a result, we can all take pride in delivering consistent, high-quality products and solutions to our customers.
