

Alphadim® 570

An ENSEMBLE™ Emulsifier

- ▶ Drop-in solution
- ▶ Maintain flavor, texture and quality
- ▶ Retain handling and stability

When it comes to removing partially hydrogenated oils from formulations, it's not enough to just substitute a non-PHO option. You deserve more. That's why Corbion created ENSEMBLE - the full line of non-PHO emulsifiers that knows how to play together, right from the first note.

Drop it in. Move on.

Corbion experts have re-engineered our popular emulsifier portfolio with one goal in mind: provide non-PHO options that deliver drop-in ease while maintaining flavor, texture, quality, ease of handling and shelf stability.

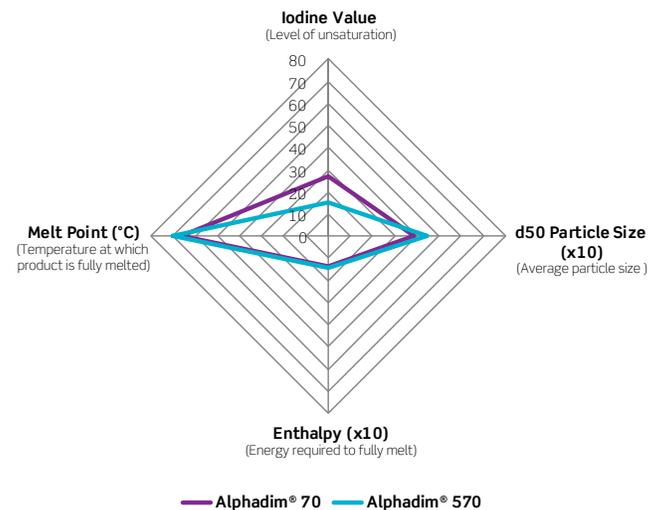

The result? ENSEMBLE non-PHO emulsifier solutions minimize reformulation hurdles and operational disruptions, allowing you to simplify and streamline formulation efforts.

Start with Alphadim®

Alphadim is part of Corbion's non-PHO line of distilled monoglycerides that have been further processed to increase their monoglyceride content. The Alphadim non-PHO line of distilled monoglycerides can be used in a variety of applications - from ice cream and sour cream to whipped toppings and pudding snacks. It's the ideal choice for emulsifying fat, improving food texture, reducing fat, and boosting mouth feel.

Comparative property analysis of Alphadim 570
